In Funeral Service?

PHONE 600

If you were faced with the necessity of singling out one funeral director to serve you, what qualifications

would you seek? Because funeral service is so seldom required, many have little knowledge of what to expect or how much

a funeral should cost. That is one reason why we publish these announcements and why we invite anyone interested to call for any further information desired. There is no charge for consultation, nor do you need to em-

ploy our service because you made such an inquiry.

HARVEST NEWS REASSURRING

Reports from the agricultural Middle West tell of a harvest so pientiful that, despite war and the food demands of our allied nations, advise, "Take it for granted that America will have sufficient to eat through 1943 and longer.

The news, of course, comes without the accompaniment of widespread cheers from Americans, who have been so used to worries over farm surpluses that the fact of a record yield of staple crops fails to embody any element of surprise.

But to the perspiring farmer, the white collar workers who are leaving their jobs in the western rowns to aid with the harvest and to those officials in Washington struggling with the whole United Nations chooses and, as a rule, all chaose food problem, the renerosity of the fields is of great importance.

It means that in America, as in no other country of the world, Mother Nature is creating a vast reservoir of food that may well win cost, by writing me at 235 E, 45th flies comply with blackout restrictthe war and decide the great issues of the peace. UNITY IN UNITED STATES

One thing for which we can take pride in the United States is the measurements for a set of blocks unity of purpose which our people have for winning the war. There to be home-made the yourself, carare of course, many leaders, political and otherwise, who are seeking to penter or cabine(maker), obtain personal advantage for themselves or the group which they repcost to by writing me enclosing a

the group sengence who sees you on obtain personal advantage for themselves of the best of the state of the war effort. But so far as the people as a self-addressed envelope with a resent at the expense of the war effort. But so far as the people as a self-addressed envelope with a whole are concerned they are furnishing men, buying bonds and doing what they can to speed up the war effort.

Unfortunately unity in Canada is not quite so solid, although it can be said with confidence that Canada is going to do her part. The lack of unity there is over the sending of conscripted men to Europe. When a plebiscite was held the country as a whole voted in favor of this proposal by 63 per cent of the vote. But at the same time the French Canadians who speak their old language and not English, and who retain French customs and ideals, voted by 72 per cent against sending their boys abroad except as volunteers. When the bill which was introduced in the Canadian parliament for sending conscripts abroad came up for second reading, the legislators from "French" Canada, although they belong to the politically predominant liberal party bolted their party almost manimously and voted against the measure. It will ultimately pass and become a law, according to all predictions, but the action of the French "statesmen" evidences a lack of unity which is not evident in the United States.

The unity which we have in our own country from Maine to Calitornia is one of the best reasons for believing that we are going to win this war. Uncle Sam has never been licked yet, even when public sentiment was not so unanimous for fighting to a finish as it is today. We have only to recall Civil War days when the country was divided and the enemy-they were Americans, 100-were almost at the gates of the capital city. We survived then and we will again. So will Canada,

THAT SECOND FRONT

It is generally admitted that this war can only be won by taking the offensive. Of course, the United Nations must stop the Axis in its reacks before a general offensive can be assumed, all along the line. But military strategists believe that one way to stop them is to open up

Where will this front be? Most of us are looking for it in Western Where will this front per most of us are localing to the same form of the same already thousands of American boys training in Here's hoping soon again you'll call Ireland and England. The British themselves have millions of trained soldiers at home ready for action. Only the English Channel or the North | God guard you on your grievous Sea have to be crossed in order to land on what is now German territory; and so assail the enemy. And once this is done Hitler will have to transfer some of his legions from the East front and so give up his offensive in Russia. This seems to be the obvious thing and is what most of us are expecting.

But because we are expecting it, something else may be planned by our military strategists. While we have many soldiers and airmen in Ireland and England we have more thousands in other parts of the world. Establishing a second front in Western Europe has its difficulties. The second from would be launched where Germany would have the shortest communications. Furthermore, with the present shortage of shipping what it is, the establishment of a second front in France and but not the living essence. We should not be easy.

Therefore many strategists are looking for the second front to come either in Italy or in the Orient, rolling up the Japanese first, While it would take a little longer, they think coming in by the eastern gate would give more assurance of success. Of course, the collapse of Russia would make this impossible but these strategists believe Russia can hold out indefinitely even if she does have to give up more territory.

The only thing we can be sure of is that another front is comine and when it is put in operation Hitler will have troubles which will make those which beset him now seem slight indeed. The establishment of this second front will mark the turning point of the war and spell the end

Switzerland reports Hitler doesn't expect a victory this year. And he might not be greatly surprised if he got a deteat.

The Parent Problem

By Garry C. Myers, Ph. D.

RELIGION AND FAMILY HAPPINESS

Every now and then someone writes me or tells me that the child should not be exposed to religion until he is old enough to choose se-lectively the kind of religion he wishes to espouse.

At its face value this proposition seems to be sound. But if you explore a little you will see how impractical n is, in case you are interested in having the child join a churcli.

By the time the child is old enough to think any such matter through entirely alone (if it were really possible to do so) he is not likely to be interested in any organized form of religion. Religion. or even a particular creed, is not matter of logic anyway. Some of us fool ourselves that there is clear reasoning back of our particular brand of faith. UNITY IN UNITED STATES

One thing for which we can take pride in the United States is the measurements for a set of blocks unity of purpose which our people have for winning the war. There to be home-made (by yourself, carare of course, many leaders, political and otherwise, who are seeking to penter or cabinetmaker). These obtain personal advantage for themselves or the group which they represent at the expense of the war effort. But so far as the people as a self-addressed envelope with a 3whole are concerned they are furnishing men, buying bonds and doing cent stamp on it what they can to speed up the war effort.

Unfortunately unity in Canada is not quite so solid, although it can be said with confidence that Canada is going to do her part. The lack of unity there is over the sending of conscripted men to Europe. When a plebiscite was held the country as a whole voted in favor of this proposal by 63 per cent of the vote. But at the same time the French Canadians who speak their old language and not English, and who retain French customs and ideals, voted by 72 per cent against sending their boys abroad except as volunteers. When the bill which was introduced I sing them all of land and sea in the Canadian parliament for sending conscripts abroad came up for Who in the cause of liberty second reading, the legislators from "French" Canada, although they belong to the politically predominant liberal party bolted their party Young lads of just a year ago, almost unanimously and voted against the measure. RELIGION AND FAMILY HAPPINESS

Every now and then someone writes me or tells me that the child should not be exposed to religion until he is old enough to choose selectively the kind of religion he wishes to espouse.

At its face value this proposition seems to be sound. But if you explore a little you will see how impractical it is, in case you are interested in having the child join a

By the time the child is old enough to think any such matter through entirely alone (if it were really possible to do so) he is not likely to be interested in any organized form of religion. Religion, or even a particular creed, is not a matter of logic anyway. Some of us fool ourselves that there is clear reasoning back of our particular brand of faith. Chiefly it is a matter of the family into which we happen to be born, and the other friends we have admired.

NEW 1942 OLDSMOBILES! BRAND NEW TIRES! NEW GAS-SAVING ECONO-MASTER ENGINE!

YOU may be eligible, whether you know it or not, to trade in your old car on a new, up-to-date 1942 model. Let your Oldsmobile dealer help you investigate this possibility. If you are eligible, he can take all the bothersome details of buying a new automobile under rationing rules right out of your hands. And he can sell you the best war-time car of all -a new 1943 Oldsmobile.

Oldsmobile offers everything you want in a car for today. Durability that will keep you on wheels for the duration and beyond. Economy that gives more miles on every gallon of gas. Reliability that assures trouble-free, expense-free operation. All this, plus gas-saving, tire-saving Hydra-Matic Drive, the most efficient, most durable transmission in Oldsmobile's 45-year history!

UNDER NEW RATIONING RULES, BUYING IS EASIER THAN EVER! If you are engaged in essential work directly or indirectly con-nected with war effort, you can

prove your need for a new car if you answer 'yes' to any one of these questions: 1 Do you need to travel quickly in connection with your work, and would you be

better able to do so by carthan by other available transportations Do you ever have to transport passengers, or heavy or bulky tools or materials, in

connection with your work? Does it take you 1% hours or more a day to go to and from work without a car, and

could you save at least 45 minutes with one? 4. Do you have to walk at least

3 miles going to and from

work without a car? Is your work arduous, or 5. Is your work arounds, unusually long, or do you have to work late at night?

6. Are the local transportation services you would have to use to get to work overcrowded? Is your physical condition such that it would be a hard-

ship for you to wolk to work or use public facilities? Can you show that you need an automobile because of other unusual circumstances?

Vacation Hopes Die

Disagreement Between Democrats And Republicans Blocks Adjournment

of members of congress for a va-

Administration leaders proposed that congress pass a resolution of recess which would have a provision for the recall of congress by a majority vote of the vice president, the speaker, the Democratic leaders of the house and senate and the Republican leaders of the house and senate. Republican spokesmen objected to this plan upon the grounds that they would be out-voted four to two on any decision to recall

The Republicans made a counterproposal that any one of the six should have the right to recall congress if he deemed it necessary for the body to return to session. The Democrats rejected this proposal, resulting in an impasse on

the house and senate will each take an unofficial vacation during August through the formula of threeday recesses. Under this plan each party will leave a corporal's guard on duty to block all regislation and in an emergency, to insist upon the presence of a quorum in either branch which would force the legislators to return to Washington.

War Casualties Of Rationing Cuts U. S. To Date 44,143

WASHINGTON, July 22,-Amer-Rural Mail Group ica's war casualties—killed, wounded and missing—i seven and one half months of fizhting, today stood at 14°

The total, representing the combined losses of the Army, Navy, Marine Corps, Chast Guard and the Philippine Scotts, was made public by the Office of War Information and includes 4.801 killed, 3.218 wounded and 3.124 missing.

In addition, 1.922 Navy officers and men were reported prisoners of war. Of those 301 were Navy per-

war. Of these, 301 were Navy personnel and 721 Marines.

Casualties By Services The casualties by services are: Army—killed 902; wounded 1.413;

Navy-killed 3,420; wounded 1,051; missing 7,672 Philippine Scouts -- killed 479; wounded 754; missing 11,000.

The prisoners of war are: Navy-Officers 52; enhated men

Navy—Oricers 52; emission men 349; Marine Corps officers 40; enlisted men 681.

The totals do not include the heavy casualtid among troops of the Philippine Commonwealth Army, which numbered 65,000 at the outproble of war.

"The bulk of Army casualties fall into the category of missing, and since most of those were at Bataan and Corregido: in the Philippines and in Java, they are believed to be prisoners of war," the OWI said. "No definite report as to their status, however, has been received from the International Red Cross. Only 20 of the Army personnel reported as missing have officially been reported prisoners of war."

UNITED We Stand!

We Americans have MORE things to defend--And we're going to fight HARDER to defend them!

YES, we are fighting for our lives as a free people. But we're fighting for more things. The American Way. The American belief in life, liberty and civilization.

Our sons and daughters have grown up knowing and cherishing the precious American heritage. That appreciation was born and raised in the great American home.

Today, when sons, fathers and even mothers and daughters are fighting aggression, let's keep alive the many things so dear to American life. And foremost, let's keep the American home living.

We in the furniture industry are proud of our modest part in making the American home the finest in the world—the mightiest spiritual fortress in the world.

UNITED We Stand!

We Americans have MORE things to defend--And we're going to fight HARDER to defend them!

VES, we are fighting for our lives as a free I people. But we're fighting for more things. The American Way. The American belief in life, liberty and civilization.

Our sons and daughters have grown up knowing and cherishing the precious American heritage. That appreciation was born and raised in the great American home.

Today, when sons, fathers and even mothers and daughters are fighting aggression, let's keep alive the many things so dear to American life. And foremost, let's keep the American home living.

We in the furniture industry are proud of our modest part in making the American home the finest in the world—the mightiest spiritual fortress in the world.

FROM ME TO YOU

By MESEEALL

The Show at the Stadium last evening was a huge success . . . several thousand people were on hand to see the fights and the bomb demonstration . . . let's hope that the show last night will be as near the real thing as we will ever have here . . , and let's pray that this mess will be over before very long . . . The committee in charge last evening did a splendid job in getting the show together let's give them a hand, that is let's tell them about it by talking the show over with your friends. ¥ ¥

Here are a few dogs to keep your mind off the troubles that show their head in days like we are having . . . so take them away folks, they are all FREE.

Phone 2656-M . . . Part German shepard, 3 puppies about 5 weeks old, 2 females, male, Phone 2185-R . . . A 4 months old female puppy . . . brown and very friendly,

Harlansburg-Eastbrook Road, one mile east of Alborn's Dairy . . 4 puppies about 2 months old . . . 3 males, one female.

Princeton 10-R-15 . . . Male hird dog that will make some one a good hunter. 121 N. Scott Street . . . 2 months old dog, white with a little brown, fine for a boy.

115 Hillcrest Ave., Phone 4123-J between 9 a. m. and 2:30 p. m. three puppies about 8 weeks old . . . part fox and wirehaired Phone 4170-M . . . Male dog that some one has let go stray . a fine pup but present finder can't keep dog. Call at once,

Quite a few business houses have flags or one flag displayed in front of their place of business . . . some of these flags through necessity are at the edge of curb . . . thus making it in the way for some motorists. We have seen several cars hump the flag poles breaking them off and knocking the Stars and Stripes to ground . . . one driver out of ten gets out and picks up the flag. We have the names of several of those who haven't picked up the flag . . . some are very prominent people . . . wonder just what they think about "Old Glory"? Come folks, let's wise up . . . if you want to live like they live over there . . . It can be arranged for you to go over and kiss the rising sun or the man with the little

Tonight there will be a Biackout . . . be on the alert. Let's see if we can't all cooperate . . . don't sit in the dark . . . blackout your home. One room, the next time the time might be longer than one half hour and the day probably will not be announced.

FROM ME TO YOU

By MESEEALL

The Show at the Stadium last evening was a huge success . . . several thousand people were on hand to see the fights and the bomb demonstration . . . let's hope that the show last night will be as near the real thing as we will ever have here . . . and let's pray that this mess will be over before very long . . . The committee in charge last evening did a splendid job in getting the show together . . . let's give them a hand, that is let's tell them about it by talking the show over with your friends.

Here are a few dogs to keep your mind off the troubles that show their head in days like we are having . . . so take them away folks, they are all FREE.

Phone 2656-M . . . Part German shepard, 3 pupples about 5 weeks old. 2 females, male. Phone 2185-R . . . A 4 months old female puppy . . . brown and very friendly, Harlansburg-Eastbrook Road, one mile east of Alborn's Dairy . . .

4 puppies about 2 months old . . . 3 males, one female. Princeton 10-R-15 . . . Male bird dog that will make some one a good hunter. 121 N. Scott Street . . . 2 months old dog, white with a little brown,

115 Hillcrest Ave., Phone 4123-J between 9 a. m. and 2:30 p. m. . . three puppies about 8 weeks old . . . part fox and wirehaired

Phone 4170-M . . . Male dog that some one has let go stray . a fine pup but present finder can't keep dog. Call at once.

Quite a few business houses have flags or one flag displayed in front of their place of business . . . some of these flags through necessity are at the edge of curb . . . thus making it in the way for some motorists. We have seen several cars bump the flag poles breaking them off and knocking the Stars and Stripes to the ground . . . one driver out of ten gets out and picks up the flag. We have the names of several of those who haven't picked up the flag . . . some are very prominent people . . . wonder just what they think about "Old Glory"? Come folks, let's wise up . . . if you want to live like they live over there . . . it can be arranged for you to go over and kiss the rising sun or the man with the little fuzz under his nose.

Tonight there will be a Blackout . . . be on the alert. Let's see if we can't all cooperate . . . don't sit in the dark . . . blackout your home. One room, the next time the time might be longer than one half hour and the day probably will not be announced.
